# MASTRI ARTIGIANI

## MASTER CRAFTSMEN

La Tiferno Mobili circondata dagli splendidi boschi umbri, si dedica sin dagli anni settanta alla bellezza, al calore insuperabile del legno. Da tale tradizione e passione è nato Tiferno Design, il marchio di Tiferno Mobili che trasporta la seduzione del legno dal mondo del mobile al mondo del parquet.

Uniamo con orgoglio le lavorazioni artigianali, unite ai saperi tradizionali, alle più moderne tecnologie, con le competenze e l'abilità generate dal lavoro manuale. La conoscenza autentica e personale dei segreti del legno ci guidano nell'avvio di ogni progetto, al suo costante controllo, curando la qualità in ogni dettaglio. Per questo il sapere dei nostri artigiani è la colonna portante dell'azienda; solo dopo viene il processo produttivo, tutto rigorosamente nel rispetto della natura.

Dai materiali di recupero alle proposte più recenti, tutti i nostri prodotti sono accomunati dal rispetto per la tradizione, la bellezza e la natura.

Tiferno Mobili, surrounded by the splendid Umbrian woods, has dedicated itself since the seventies to beauty, to the unsurpassed warmth of wood. From this tradition and passion Tiferno Mobili created Tiferno Design, the brand that conveys the seduction of wood from the world of furniture to the world of flooring.

We proudly combine craftsmanship, combined with traditional knowledge, the most modern technologies, with the skills and ability generated by manual work. The authentic and personal knowledge of the secrets of wood guide us in the start of each project, in its constant control, taking care of the quality in every detail. This is why the knowledge of our craftsmen is the backbone of the company; only after comes the production process, all rigorously respecting nature.

From recycled materials to the most recent proposals, all our products are united by respect for tradition, beauty and nature.

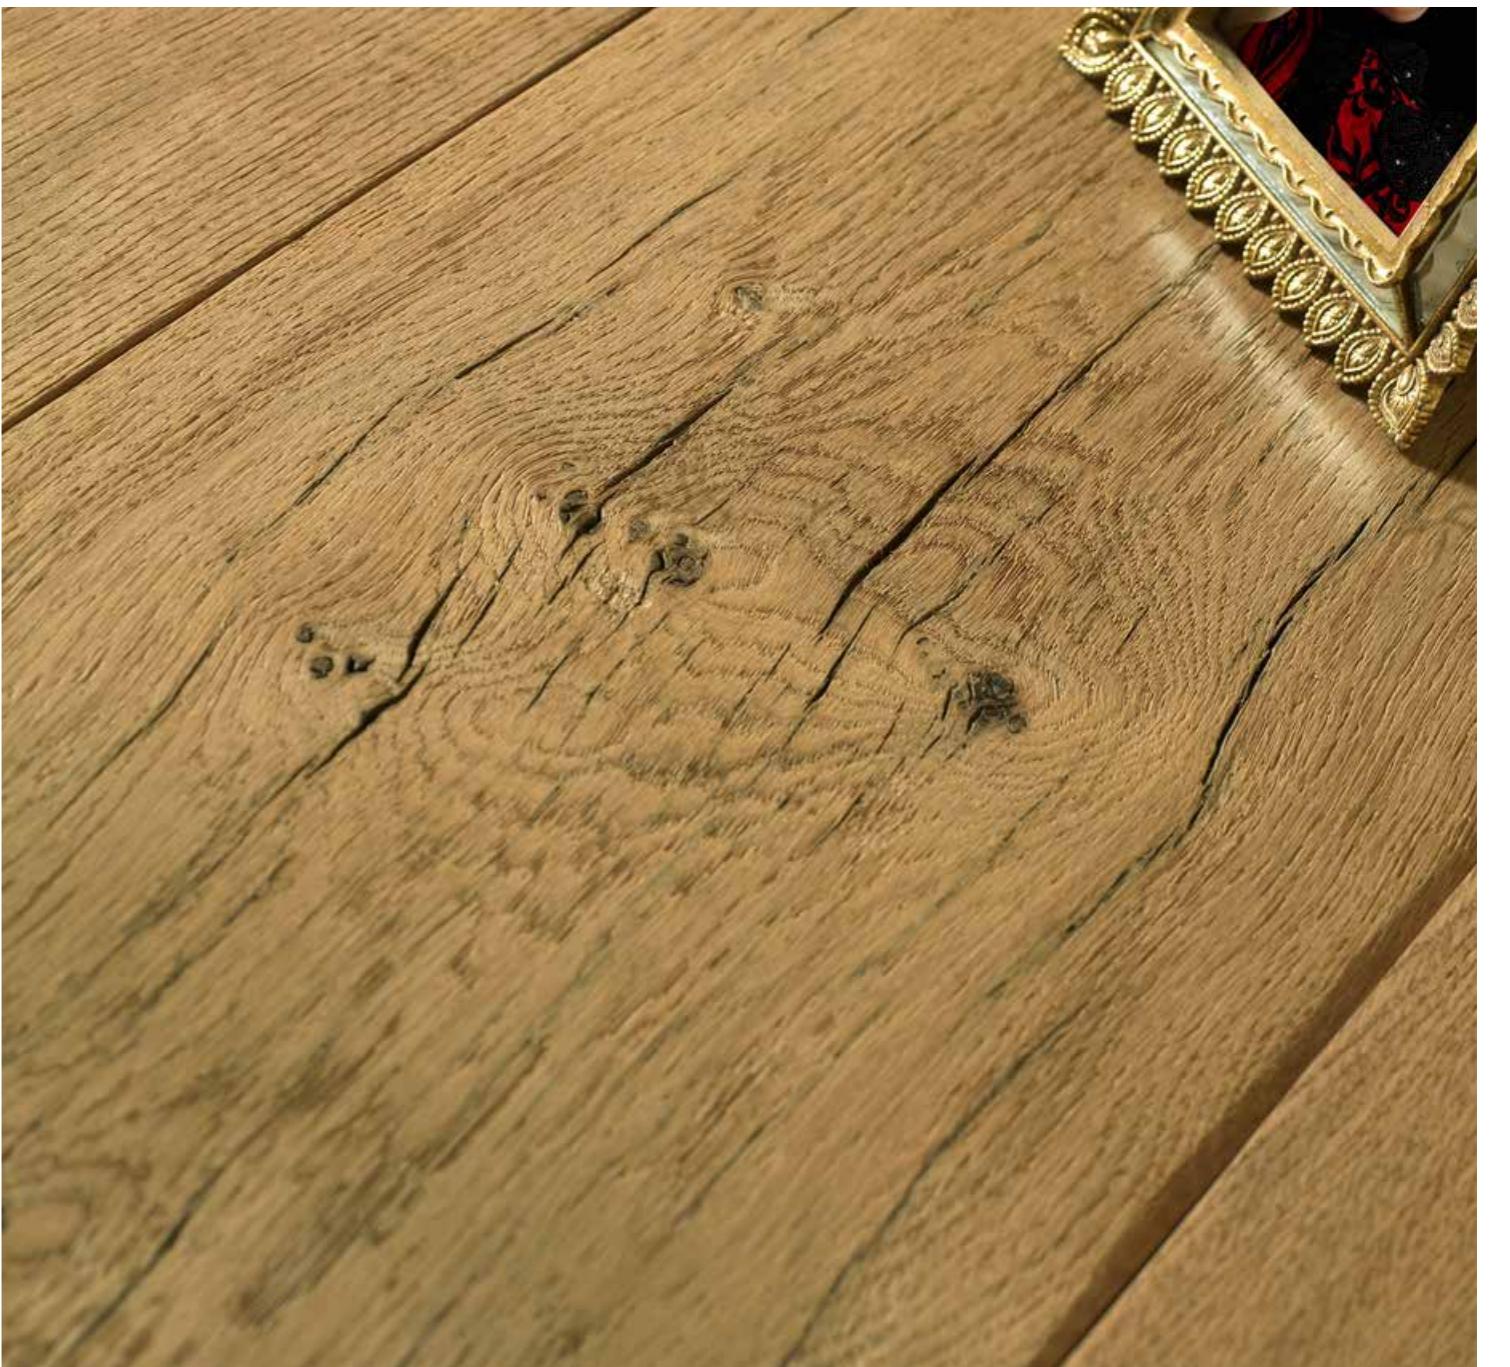

TAVOLATI  
PLANKS

TO1.

**ROVERE VECCHIO / OLD OAK**  
da travi di recupero / recovered from old beams

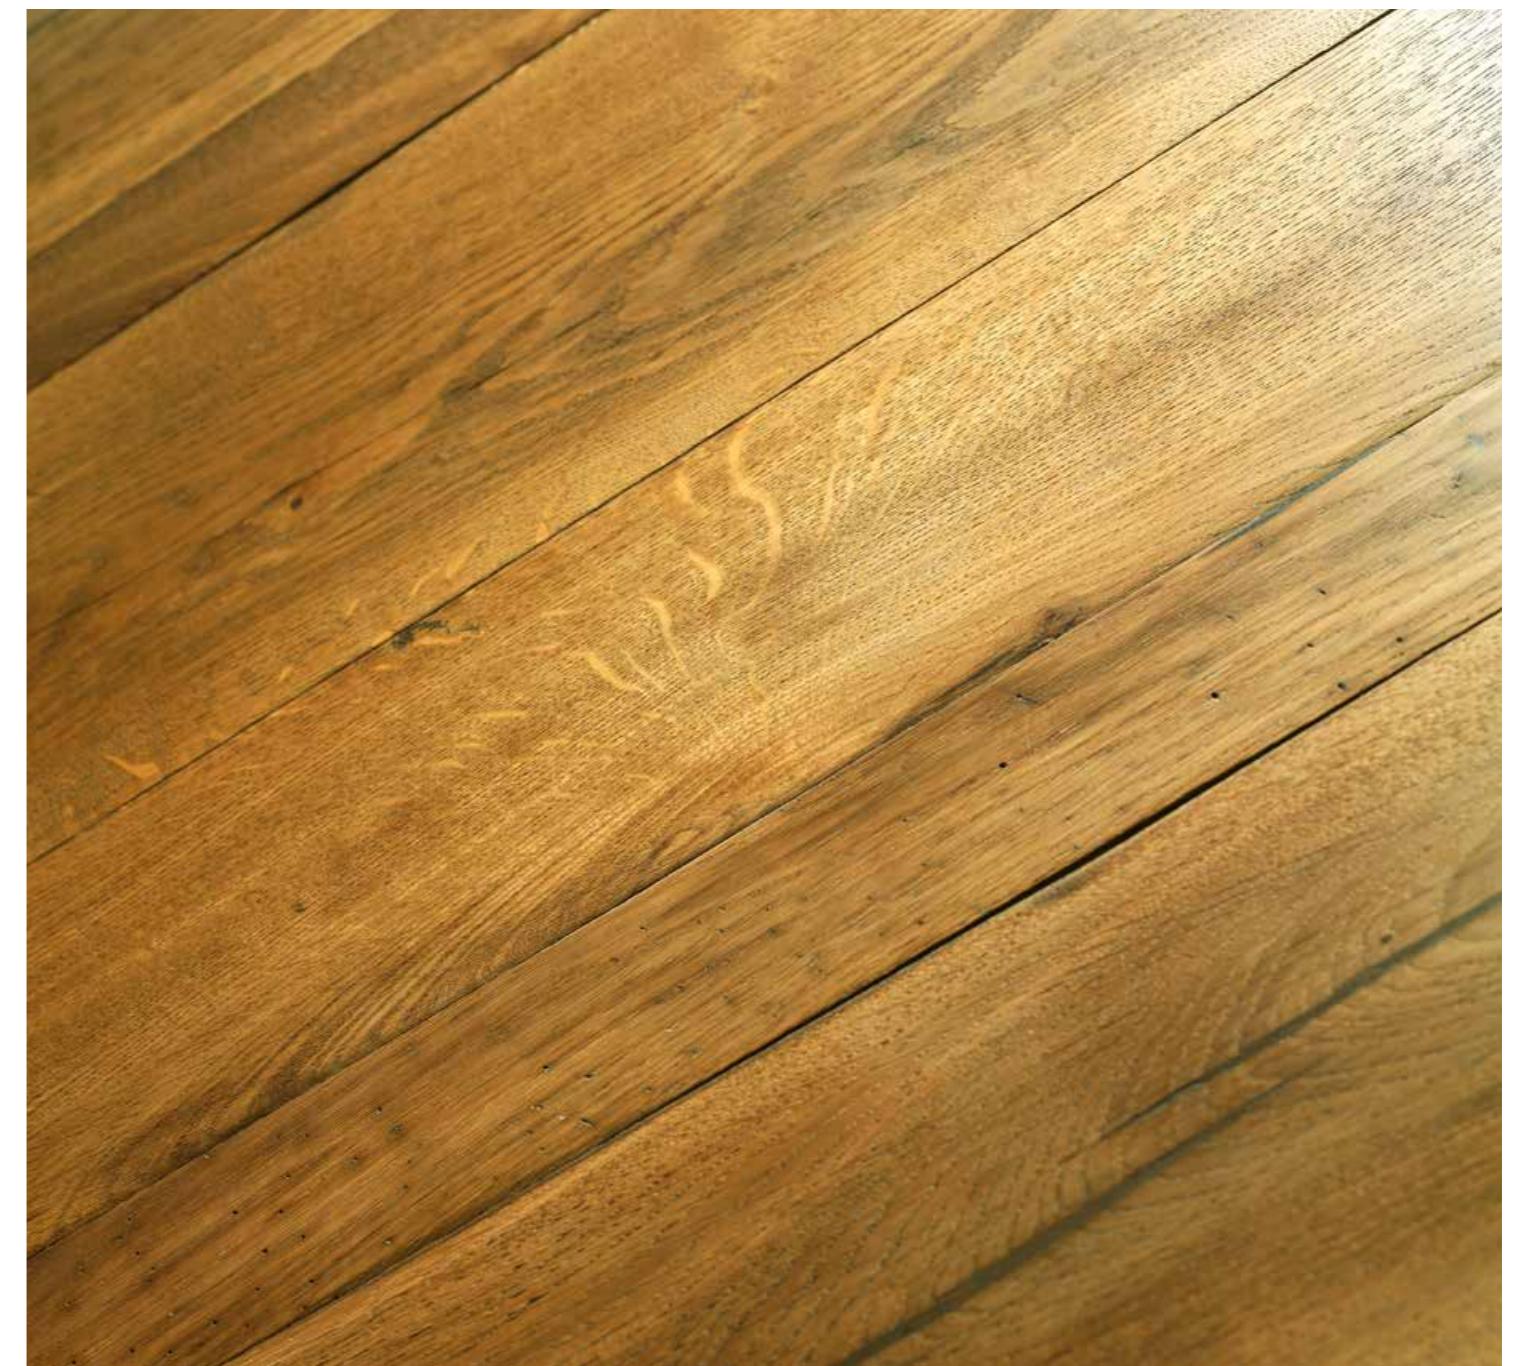

Tavolato di rovere vecchie travi di recupero. Bisellatura irregolare sui bordi.
